# THE SPIKE-STRIP SYSTEM OFFERS

## THE SPIKE-STRIP SYSTEM

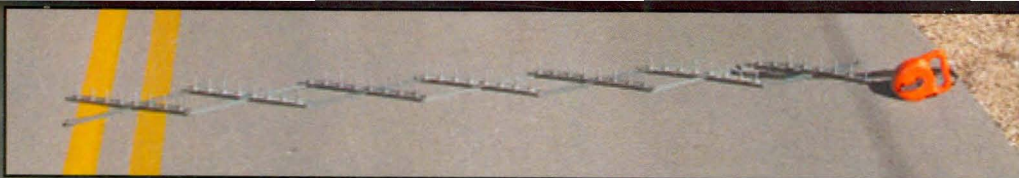

- Ⓢ **Spike-Strip** is the smallest and lightest weight model of all spike systems!
- Ⓢ **Spike-holster** presents Spike-Strip ready for quick access and deployment.

Ⓢ **Spike-Strip** can be deployed with one hand and does not require re-training for users of accordion type systems. The device deploys in a covert sliding action to prevent detection and increase

effectiveness. The cord reel is heavy duty and provides 80 feet of cord to facilitate cover. The base is re-useable and is officer reloadable. The spikes cost pennies and are easy to store.

### THE STANDARD MODEL

Spike-Strip systems are available in a standard size (10010) model which includes seven strip sections connected end to end. The system also includes a cord-reel, strap and a spike-Holster.

### THE WIDE MODEL

Spike-Strip systems are available in a wider size (10020) model which includes ten strip sections connected end to end. The system also includes a cord-reel, strap and a spike-Holster.

### BRACKET

The Spike-Holster incorporates an molded slot to allow the mounting bracket to slide and attach to the holster. The bracket allows the holster to be transferred to other cars. The bracket also allows for standardized mounting in all vehicles. The custom mobility box requires a special lead-time for manufacturing.

### EXTRA HOLSTERS

Maximize the number Spike-Strip Systems out on the roadway at any given time. Extra holsters mounted in all vehicles will allow the transfer of your Spike-Strip to any vehicle in your fleet. Extra holsters are available in the standard or in custom colors.

### CUSTOM HOLSTER

Holster are available in several different colors with your logo. The Logo can be your department name, badge, patch design, or any way you want it.

## SYSTEM COMPONENTS

### CORD REEL AND STRAP

The cord reel and strap are included with each spike system. They are over-size and tough (14.9 ounces). This is to insure the safety of the officer and the public. The cord (80 feet) is a heavy duty and designed to take multiple impacts. The Cord-reel is the first to include a mouth to inspect and service the reel.

### SPIKE-HOLSTER

Each system also includes a spike holster. The holstered design takes less steps to access, deploy and store.

## ACCESSORY ITEMS

Spike-Mobility offers several optional accessories items. They include a custom bag for motorcycle use and a custom spike holster, with department logos and colors for extra vehicles.

### THE MOTOR BAG

The Motor-Bag is used for storage in motorcycles. The bag is a soft cordura 18-inch length by 5-inch diameter. It fits in the saddlebags of Harley Davidson, Honda, and Kawasaki Police bikes.

### EXTRA HOLSTER BRACKET

Extra Mounting brackets are an economical way to maximize the number of Spike-Strip Systems out on the road at any one time. Mounting brackets in all cars, allow the spike holster with the Spike-Strip System to be moved from car to car or checked in and out. The holster slides onto and off the bracket in a snap.
